What Makes Stanly Great?

Stanly County offers the opportunities and amenities that make our county a destination for anyone looking for a place to live or visit. We are experiencing unprecedented growth in Albemarle and look forward to what the future will bring.

Parks are one of our greatest assets next to the people of our county. Nearly every community has a park available. Albemarle has several parks with a variety of amenities. Whether you are looking to attend a concert, fish in City Lake, swim in a pool, play tennis, basketball, pickleball, disc golf, picnic, take a walk on one of many trails or just take the kids to the playground equipment, we have what you are looking for.

The city also offers two amenities not found often. A dog park is available for everyone to allow their dogs the opportunity to exercise and run within a fenced in area.

The city partnered with Carolina Treetops to bring an exciting and adventurous ropes and rappelling course to Rock Creek Park. Courses are available for adults and children. Consider a family adventure to Rock Creek to test your skills and follow with a swim, picnic or walk.

Morrow Mountain State Park offers canoes, kayaking, camping, swimming, walking trails and much more.

Our communities offer a great advanced education. Stanly Community College is one of the premier institutions in the nation. The college consistently ranks near the top. There are many programs available without leaving home. The School of Nursing is rated extremely high and prepares the students for the world of health care. Advanced Manufacturing offers career trade classes for individuals that are looking to work in trades without attending college classes.

Pfeiffer University offers traditional university degrees and more. Health Sciences are avail-

able on the original campus and now in Albemarle. The Albemarle campus offers a Physician Assistant program and Occupational Therapy. The community has adopted Pfeiffer and students are active in downtown.

The downtown is in the process of a major transformation with old buildings being remodeled for apartments and business. Many new businesses are locating in the downtown and more are anticipated. If you are looking to invest, the city looks forward to working with you. We invite everyone to visit our downtown businesses and see what you are missing.

Our journey to Stanly County started about half a century ago from India when we immigrated to the United States.

In India we grew up in a moderately big size city crowded with a lot of hustle and bustle. In the U.S. we landed in Baltimore where I had accepted surgery residency. Two years later we moved to New York City. My wife or I were spending one and a half hours one way to commute to hospitals.

Then finally and fortunately 42 years ago we chose Stanly County to be our home for medical practice in affiliation with the hospital.

We found this county to be beautiful with open areas, beautiful farms, site of grazing cows and horses. Stanly County has a well-equipped beautiful hospital now a part of the Atrium health care system. It is home to Pfeiffer University and Stanly Community College, which provides dedicated, knowledgeable, well educated workers in many fields to fulfill the need of local industries as well as future new industries.

Beautiful lakes and Morrow Mountain make the landscape of this county.

My wife and I retired from medical practice six years ago and we continue to live here. We love this county, people here are wonderful, weather is great. From here the commute to Charlotte and CLT airport is just about an hour and commute to Greensboro, Winston-Salem airport's hour and 15 minutes. Traveling just 2.5 hours we can enjoy the beautiful Blue Ridge Mountains, and in about 2.5 hours in the other direction we can enjoy the beaches of Atlantic Ocean.

ly County their home.

Stanly County also has two Rotary clubs which provide wonderful fellowship and opportunity for various service programs and leadership.

Albemarle Rotary Club**

Stanly County is no doubt an absolutely wonderful place to call home. It hosts some of the most beautiful landscapes and unique businesses in North Carolina — not to mention a great location between mountains and coast.

My focus will be on the South Stanly/Norwood area. If you spend any amount of time on beautiful Lake Tillery, you

will quickly realize that it is a gem of Stanly County that is quickly gaining attention.

Lake homes are being developed at an exploding rate, which in turn is expanding growth and development in the Norwood area. There have been over eight new business grand opening ceremonies in Norwood over the last two months.

Calls for new mom and pop shops are revitalizing the quaint little town. New restaurants are being developed as we speak and new businesses are complementing ones who have been serving for years.

The Fork Farm and Stables, another unique business, has hosted the Olympic Trials for years for Equestrian Cross Country, and now is a host of a wonderful clay shooting venue.

Juneberry Ridge, formerly Lucky Clays Farms, has been serving the community with fresh produce and is now hosting an amazing summer concert series for families.

Michelin in Norwood works on developing and building aircraft tires for the private sector as well as the military.

With all the uniqueness that Norwood has to offer, it is still

the people that drive the community and bring heart and soul to the town.

We are blessed to live in an

expanding growth and development

amazing county like Stanly, and Norwood is just one of many reasons to bring your family and business to the area.

**James Wilson, Police Chief
Norwood**

I have been fortunate and humbled to have lived in Stanly County for the past 13 years and serve as county manager.

Stanly County has much to offer such as its rivers, lakes, Morrow Mountain State Park and other natural amenities. However, for me Stanly County is great because of our people and civic pride.

All over Stanly County there are neighborhoods where folks consistently gather together,

check on the elderly and kids play outside from dawn to dusk. Small, family-owned businesses and even larger corporations donate hundreds of thousands of dollars each year to local ball teams, high school athletics, arts and cultural events, nonprofits and much more. Further, local banks and small businesses get to know you by name.

Having lived in larger communities, it is hard to put into words the value of having a

relationship with your local bakery, restaurant, mechanic, banker, electrician or any other

our people and civic pride

service industry. This is a result of our people.

Stanly County has its roots

in agricultural and industrial manufacturing. Both of these industries invoked and instilled a deep sense of community. Whether it was the rural neighbors and family members coming together for a harvest or neighbors helping each other in the various mill towns across our great county, community pride is everywhere. This community pride is now part of our collective DNA. It has helped to define how folks interact and has created certain community expectations.

Community fosters relationships, friendships and helps to build trust. Relationships are what makes this place special. We are very fortunate to live in a gem of a community. Can it be improved? Of course, there is always room for improvement. However, more and more folks are beginning to discover our great community, which is evident by the new housing growth and the increase in business and retail development.

I am confident new residents and businesses will also fall in love with Stanly County as a result of our people.

Andy Lucas,
County Manager

Stanly County has a very high quality of life. The small towns and beautiful landscape in the outlying areas provide scenic views throughout the year for visitors and residents. It's easy to unwind at the end of a hectic day when you have the serenity of our rural community to retreat to.

The low cost of doing business in Stanly County creates a business climate for entrepreneurs and small business own-

easy to unwind at the end of a hectic day

ers as well as large employers to succeed. Paired with our low taxes, trained and affordable workforce, and low cost of living, a healthy balance of opportunity and affordability creates a local economy where everyone can succeed.

SCS to offer summer program du

By Chris Miller
Chris.Miller@StanlyNewsPress.com

Stanly County Schools, along with every school district in the state, will be required to offer a summer learning program to help students deal with

learning loss as a result of COVID-19. The State Board of Education approved rules for the new program on April 19. The idea for a learning recovery and enrichment program originated in the General Assembly with House Bill 82, which was

co-sponsored by a host of representatives including Wayne Sasser (R-Stanly). School districts must offer students at least 150 hours, or 30 days of summer instruction. The program is prioritized for at-risk students and at-risk of failure, but after

Albemarle Police Chief David Delin confirmed Saturday afternoon an incident where shots were fired at Albemarle police officers. Investigating an attempted armed robbery on South Bell Avenue Friday night, officers spoke to a victim who said a group of juveniles had attempted to sell her a gun. Delin

hager said it was suspected to be a handgun, but officers did not see the weapon. The victim indicated which direction the juveniles ran off. About a minute later, three shots were fired in the general direction of the four officers.

"It appeared they were shooting at the officers," Delin said.

He said officers never saw the suspects as they were shooting. No sus-

Proposed budget reduces tax rate

By Chris Miller
Chris.Miller@StanlyNewsPress.com

Albemarle residents will see a tax decrease if the proposed city budget passes.

The 2021-2022 proposed annual city budget recommends the property tax rate be reduced to 61 cents per \$100 valuation. It was 64 cents last year.

City Manager Michael Ferris presented the proposed budget during Monday's city council meeting.

The proposed budget totals a 4 percent increase compared to last year's budget of \$70.5 million. About \$19.5 million will go towards the General Fund, almost 6 percent higher than the FY 20-21 adjusted budget.

In his budget letter, Ferris wrote there will be a \$75,000 increase in the General Fund share of the street preservation program and that provisions will be made to continue partnering with Retail Strategies to recruit new businesses to the city. Other funded projects include replacing the aging structures of both city pools, replacing weight equipment at E.E. Waddell Community Center and LED lighting installation to replace the roof on the Niven Center and resurface the park road of Moreland Park.

Senior Center director to retire

By Chris Miller
Chris.Miller@StanlyNewsPress.com

After more than 30 years working in the senior services department, the retiring director of the Senior Center, Becky Woodhull is retiring.

Her final day will be Friday.

She had been mulling retirement for the past year, but ultimately made the decision to spend more time with her family and friends, especially her two grandchildren in Charlotte.

"I've had a job that has certainly enriched my life because of the people I've gotten to know," she said. Her friend memories, she said, have been meeting and befriending so many seniors over the years.

"She's done some wonderful things for the area and I know they appreciate it," County Manager Andy Lucas said. "You're not going to find some body that's going to have a bad word to say about Beck."

Originally from Ireland County, Woodhull has lived in Stanly since 1983. She initially worked as a nutrition supervisor, where she oversaw the congregate meal program and started the home delivery meal program. She became director of the Senior Center in 2003.

During her tenure as director, the activities and programs offered at the Center have increased as the county's senior population has continued to grow. To account for the
